Career & Technical Education High School Field Trip

Parents,

We will be traveling to the high school on **Friday, February 23rd** to tour the CTE programs the high school has to offer. The purpose of this short trip is to broaden your child's sense of what is offered in the area of Career & Technical Education at the secondary level, and show them what opportunities are available in the coming years. The students will miss the first three periods of the school day and we will return before or at the beginning of 4th hour. Students are responsible for any work they need to make up during that time period. If you will allow your student to attend please sign the form below and have them return it to Mr. Sadowski by **Wednesday, February 21st**.

Please email me if you have any questions or concerns. Thank You

Mr. Sadowski

(Printed Students Full Name) may attend the trip to the high school to tour the CTE programs.
